## PROFILE

People call me Tee, and my strengths are creativity, leadership, problem solving, and efficiency; I am driven by exploration. I thrive in building experiences for myself and the people around me. I pride myself in my innate abilities to solve problems, improve circumstances, and turn ideas into projects. That is why I decided to change my career path from the banking industry to become an innovative and efficient tech oriented expert.

## EMPLOYMENT HISTORY

### e-Commerce Coordinator & Full Stack Web Developer, The Crème Shop

Los Angeles

Feb 2019 - Present

- Maintaining daily eCommerce management through Shopify and other top CMS platforms such as Amazon/FBA, eBay, Wish, etsy, etc.
- Designing and updating contents & templates for company website through HTML and CSS code injection, along with jQuery, javascript, and Liquid language.
- Over-viewing detailed daily analysis of all eCommerce performances through spread sheets, google analytics, and financial documents to provide weekly reports and feedback for improvements and new projects.
- Implementing company's backend integrations for enhancements such as wholesale pricing applicators, website speed optimization, color swatches, APIs, and organized and efficient code.
- Working with Design, Social Media, and Production department & other freelancers to implement better product contents, SEO, global expansions, and engagement (MailChimp) for our consumers.
- Handling all of online customer services, fulfilling orders (domestic and international) and policies, and consulting with logistical part of the company to make logical decisions.
- Converting company's previous inventory system (WMS) and accounting system (Quickbook) to ERP.
- Administrating most of company's IT and Tech issues such as GMB, API integrations, and Discord. [See less](#)

### Freelance Web Designer, ENC-Inc.

Torrance

Sep 2018 - Present

- Created UI wireframes for company's new website to display and implement a more modern style website (previously adobe flashplayer).
- Single handedly planned, designed, and developed company's new website using bootstrap, javascript, jQuery, and API from scratch.
- Developed newly created website into many mobile responsive queries including most iOS platforms and android devices with easier accessibility for users.
- Helped host server through MWS and run tests for website optimization and speculations.
